Mobile Patient Scheduling Made Easy

Our map based patient scheduling and built in route optimization tools make planning your provider's day, week, or month a snap.

Scheduling Features

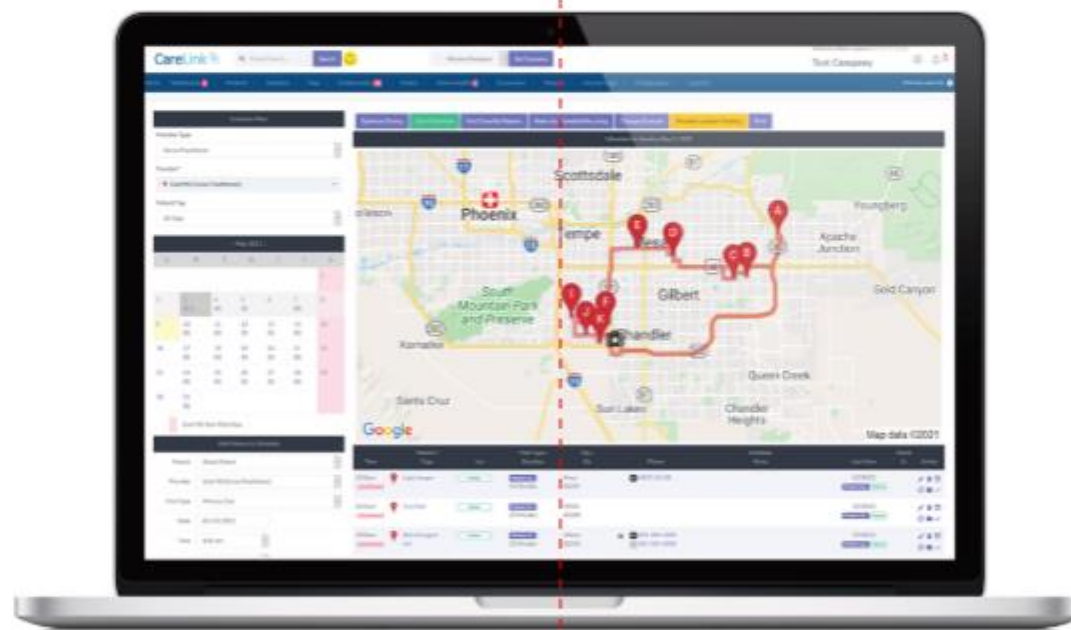

- Minimize driving distance when scheduling patients and find shortest travel route for a day's schedule
- Set patient visit frequency for multiple appointment types based on their medical necessity
- View overdue patients on a map
- One click bulk patient scheduling by provider, city, zip code, community residence, and more
- One click find near by patients
- Send email and SMS messages to confirm and remind patients of upcoming appointments
- Integrated E-Visit & recurring scheduling
- Change a providers entire schedule with one mouse click
- Automated patient and community appointment reminders
- Provider "check-in" and "check-out" and turn by turn directions via mobile app
- Mark visits as "no shows"
- Provider location tracking service (optional)
- And much, much, more!
